MANAGEMENT'S REPORT

To the Members of the Legislative Assembly of Saskatchewan

As members of management of the Public Employees Group Life Insurance Fund, we are responsible for the preparation and presentation of the following financial statements in accordance with Canadian generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The significant accounting policies adopted in the preparation of the financial statements are fully and fairly disclosed in the financial statements.

The actuary has prepared a valuation report on the provision for life insurance benefits of the Fund, made in accordance with accepted actuarial practices and using assumptions adopted by management, has been used in the preparation of the financial statements.

We believe the Public Employees Group Life Insurance Fund has a system of internal control adequate to provide reasonable assurance that the accounts are faithfully and properly kept to permit the preparation of accurate financial statements in accordance with Canadian generally accepted accounting principles.

We enclose the financial statements of the Public Employees Group Life Insurance Fund for the year ended December 31, 2006 and the Provincial Auditor's report on these financial statements.

ACTUARIES' OPINION

With respect to the Public Employees Group Life Insurance Plan, we have prepared an actuarial valuation as at December 31, 2006 for the purpose of determining the necessary actuarial information for financial statement reporting. In my opinion, for the purpose of this actuarial valuation:

- the data on which this valuation is based are sufficient and reliable;
- where applicable, the assumptions have been adopted as management's best estimates for accounting purposes and consequently I have not rendered an opinion on them; however, in my opinion, the assumptions are, in aggregate not unreasonable, when considering the circumstances of the plan and the purpose of the valuation; and
- the actuarial cost methods employed are appropriate.

Nonetheless, emerging experience differing from the assumptions will result in gains or losses which will be revealed in subsequent valuations.

This report has been prepared and this actuarial opinion has been given in accordance with accepted actuarial practice.

FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2006

AUDITOR'S REPORT

To the Members of the Legislative Assembly of Saskatchewan

I have audited the statement of financial position of the Public Employees Group Life Insurance Fund as at December 31, 2006 and the statements of operations and net assets, and cash flows for the year then ended. The Fund's management is responsible for preparing these financial statements for Treasury Board's approval. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2006 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

PUBLIC EMPLOYEES GROUP LIFE INSURANCE FUND
NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2006

1. Description of Fund

The Public Employees Group Life Insurance Fund (PEGIF) is a special purpose fund used to account for transactions of the Group Life Insurance Plan (Plan). The Plan continues under subsection 64(2) of *The Financial Administration Act, 1993*.

This Plan is managed by the Public Employees Benefits Agency (PEBA) and provides comprehensive life insurance coverage to certain members of the public service of the Province of Saskatchewan and Saskatchewan Crown agencies, whose participation in the Plan has been approved by the Lieutenant Governor in Council. The plan provides life insurance coverage for a specific period without a medical examination. The coverage is renewed automatically every year to a maximum age of sixty-five. At retirement, retirement death benefit certificates having values up to $15,000 (basic death benefit certificate $10,000) are given to employees. The cost of providing these certificates to retiring employees is included in the provision for life insurance benefits. Members can elect to continue insurance coverage from age sixty-five to seventy-five years at a premium rate that fully funds this insurance coverage. The Plan's insurance coverage does not include accumulation of cash values. The Plan is administered under the terms of an agreement with the Co-operators Life Insurance Company (Co-operators).

Claims are adjudicated and processed for payment by the Co-operators.

Employees and employers pay premiums monthly. Premiums are paid by the employers on the first $7,000 to $30,000 of coverage. Employees pay for the remainder of their coverage at a rate of $0.22 to $0.27 per month per $1,000 coverage.

Premiums for life insurance are waived for disabled members of the Public Employees Disability Income Plan, the Saskatchewan Government Insurance Long Term Disability Plan, and the Saskatchewan Government Employees Union Long Term Disability Plan. The cost of providing life insurance coverage (benefit) due to waiver of premiums is included in the provision for life insurance benefits.

During the period of agreement all death claims from a catastrophic accident over and above the two largest individual claims will not be charged to the Government. Catastrophic accident means each and every accident or series of accidents arising out of one event or occurrence resulting in the death of three or more people insured under the Plan. The Plan pays 0.35% of premium revenue to the Co-operators for this coverage. The amount expensed during the year is included in adjudication fees and the Plan had no claims for 2006 (no claims for 2005).

2. Significant Accounting Policies

The financial statements are prepared in accordance with Canadian generally accepted accounting principles. The following accounting policies are considered significant.

a) Premium revenue

Premiums are recognized when due.

b) Due from Co-operators Life Insurance Company (Co-operators)

According to the agreement between PEBA and Co-operators, Co-operators has established a segregated fund for the investment of PEGIF's monies. The balance of this segregated fund represents a debt due from Co-operators. This debt is represented by the investments of the segregated fund.

The segregated fund is valued at market and any increase/decrease in the value of the segregated fund is accounted for in the statement of operations and net assets as investment income.

Fair value of the segregated fund approximates its market value.

c) Provision for life insurance benefits

Group Life policies are considered yearly termed life policies that are automatically renewed every year. Under such life policies, claims are recorded in the year of the claim. The provision for life insurance benefits represents the present value of future payments arising from benefits for disabled employees whose premiums have been waived and includes an estimated amount for claims incurred but not yet reported. The provision also includes the present value of the retirement death benefit certificates for those employees who retired prior to year end. The provision for life insurance benefits is subject to uncertainty and is selected from a range of possible outcomes. Adjustments to the provisions for life insurance benefits are made as additional information becomes available. The provision for life insurance benefits is determined pursuant to an actuarial valuation. Any resulting change in the liability pursuant to the valuation is recognized as a revenue or expense item in the statement of operations and net assets.

d) Claims expense

Claims are recognized in the year they are incurred. Claims expense includes future payments arising from life claims received during the year and an estimate of life claims received after the year end for fatalities that occurred during the year.

e) Cash

Cash consists of balances with the bank.

3. Due from Co-operators Life Insurance Company (Co-operators)

The balance due from Co-operators is represented by investments held on behalf of PEGIF in a segregated fund. The investments held in the segregated fund as at December 31, 2006 consist of Canadian government and corporate bonds, Canadian and US equities, and non-North American equities. The investments are subject to interest rate risk, credit risk, and foreign exchange risks. In accordance with the Plan's Statement of Investment Policy and Goals, PEBA limits these risks by regulating the aggregate and individual investments limits, by setting quality parameters of investments, and by setting other constraints.

The Co-operators does not remit the investment income to PEGIF; it reinvests the income, net of management fees, in the segregated fund.

4. Receivable from Co-operators

According to the agreement between PEBA and Co-operators, Co-operators has established an account for receipt of PEGIF's premiums and payment of claims and administrative expenses. The balance in this account represents monies owing by Co-operators to PEGIF.

5. Provision for Life Insurance Benefits

An actuarial valuation was performed by Aon Consulting Inc. as at December 31, 2006 and as at December 31, 2005 to determine the liability for future costs of providing life coverage to existing disabled employees whose premiums have been waived (waived premiums) prior to year end and the retirement death benefit certificates (retirement certificates) for those employees who retired prior to year end.

The actuarial valuation of future benefits as at December 31 and the principal components of the change in actuarial valuation during the year, were as follows:

	2006		2005	
	Waived Premiums	Retirement Certificates	Waived Premiums	Retirement Certificates
Actuarial valuation, beginning of year	$14,177,400	$13,609,100	$12,772,800	$10,272,800
Interest accrued on benefits	708,900	680,500	798,300	642,000
Mortality and termination experience (gain) loss	(1,144,100)	112,900	(544,700)	114,800
New claims	4,278,800	2,731,900	3,871,600	1,096,800
Expected benefit payments	(2,948,800)	(577,300)	(3,210,200)	(500,700)
Change in assumptions	-	-	489,600	1,983,400
Total actuarial valuation liability, end of year	$15,072,200	$16,557,100	$14,177,400	$13,609,100

The total liability as at December 31, 2006 is $31,629,300 (2005 - $27,786,500). The liability includes $16,557,100 (2005 - $13,609,100) for retirement death benefit certificates and $15,072,200 (2005 - $14,177,400) for life coverage for those disabled employees whose premiums have been waived.

The valuation is based on the following assumptions: 1) the life waiver valuation uses a table derived from the *Group Life Waiver Study Based on 1988-1994 Canadian Group LTD Termination Experience*, published November 2001, with mortality rates adjusted to 200%; 2) the interest rate assumed is 5.00% (2005 - 5.00%); 3) the mortality rates of existing retirees are based on the Canadian Life 1990-92 tables; 4) a maximum 2.5% (2005 – 2.5%) consumer price indexing of future benefit payments to disabled members whose life insurance premiums have been waived; 5) the inflation rate assumed is 2.5% (2005 – 2.5%) for all future years.

If the valuation assumed no indexing of the level of insurance for those disabled employees, the liability at December 31, 2006 would be $29,946,700 (2005 - $26,191,100).

The liability for the cost of providing life insurance coverage to disabled employees whose premiums have been waived prior to year end and the retirement death benefit certificates for those employees who retired prior to year end are based on a number of assumptions about future events including: recovery and mortality rates and interest rates. The actual experience may vary significantly from the assumptions used.

The following illustrates the effect of changes in the interest rate and mortality on the retirement death benefit certificate liability:

- a 1% change in the interest rate equals a 14.8% change in the liability including the cost of living adjustment as determined by the consumer price index
- a 10% change of the Group Life Insurance mortality equals a 3.1% change in the liability

The following illustrates the effect of changes in the interest rate, cost of living adjustment and mortality on group life waivers:

- a 1% change in the interest rate equals a 5.1% change in the liability including the cost of living adjustment as determined by the consumer price index
- a change in the cost of living adjustment of 1% equals a 4.7% change in the liability
- a change of waiver mortality by 10% equals a 8.1% change in the liability

The provision for life insurance benefits is long term in nature and there is no market for settling these obligations. Therefore, it is not practical to determine the fair value of the provision for life insurance benefits.

6. Payable to Other Employers

Public Service Commission, Prairie North Region Health Authority and Sun Country Health Region (in conjunction with Canadian Union of Public Employees, Local 600), SaskEnergy, SaskPower, and Saskatchewan Government Insurance (SGI) signed agreements whereby these agencies became responsible for the additional $5,000 (total of $10,000 except for SGI total of $15,000) paid up life insurance policy to their employees upon retirement (Retirement Death Benefit Certificates).

These agencies pay the premiums for this enhanced benefit to PEGIF and PEGIF pays the claims on behalf of the employers. The payable represents the accumulated difference between premiums collected and the claims paid. The fair value of the payable approximates its carrying value.

7. Administration Expenses

PEBA administers PEGIF for a mutually agreed upon fee. PEGIF pays the annual administration fee to PEBA on agreed upon dates.

8. Management Fees

PEBA can invest money of PEGIF in any securities authorized for investment pursuant to PEGIF's Statement of Investment Policies and Objectives (Statement). PEBA has made an agreement with Co-operators to invest the monies of PEGIF consistent with the Statement. PEGIF pays management fees to the Co-operators for providing this service.

9. Investment Performance

PEGIF's investments are represented by the amounts due from Co-operators (see note 2b, 3).

The following is a summary of PEGIF's investment performance:

	2006	Four year annualized return
Actual (a)	9.7%	10.0%
Benchmark (b)	9.5%	8.9%

(a) The annual returns are before deducting investment expenses.
(b) The benchmark return is PEGIF's target rate of return for its segregated fund. The benchmark return is calculated using actual returns and PEGIF's planned investment portfolio for its segregated fund.

10. Fair Value of Financial Instruments

For the following financial instruments the fair value approximates their carrying value due to the immediate or short term nature of these instruments.

(a) accounts receivable
(b) receivable from Co-operators Life Insurance Company
(c) accounts payable
(d) claims payable

PEGIF is exposed to minimal credit risk from the potential non-payment of accounts receivable as these receivables are from government agencies and were collected shortly after year end.

11. Budget

PEBA approves PEGIF's annual budget. The 2006 budget was approved on December 20, 2005.

12. Related Party Transactions

Included in these financial statements are transactions with various Saskatchewan Crown corporations, departments, agencies, boards and commissions related to PEGIF by virtue of common control by the Government of Saskatchewan and non-Crown corporations and enterprises subject to joint control or significant influence by the Government of Saskatchewan collectively referred to as "related parties". These transactions are recorded at agreed upon exchange amounts.

Due to the nature of PEGIF, all premiums received are from related parties.

At year end, all of the accounts receivable and accounts payable are due to/from related parties.

Other transactions with related parties and amounts due to/from them are described separately in the financial statements and notes thereto.

13. Legal

PEGIF is a party to a lawsuit initiated by a claimant. The ultimate outcome of this lawsuit is not yet determinable. Accordingly, no liability has been recorded in these financial statements. Any liability arising from the resolution of this lawsuit will be accounted for in the year the lawsuit is settled.

14. Comparative Figures

Certain comparative figures have been reclassified to conform to the current year's presentation.
